**Are You a Media-Savvy Nurse?**

I recently read an interesting article which I wanted to share with you. It is entitled, *Is 2020 the Year for Increased Nurses' Visibility in the Public Sphere through Print, Television, Radio and Social Media?* by D. M. Nickitas, from the Journal of Nursing Economics 2020; (2):57.

The article highlights that nurses are regularly overlooked by the media as an expert source for health care issues. The author suggests that nurses will only get recognition for transforming the health care system when they connect with and are valued by the media. Some strategies are suggested that will help the voices of nurses to be heard. Are you interested in being media-savvy? If so, click on [https://www.medscape.com/viewarticle/929759\\_1](https://www.medscape.com/viewarticle/929759_1)

This *CNS-C newsletter* offers more resources about the COVID-19 pandemic in its 11<sup>th</sup> edition.
